

Marina Huber

iOS developer

I am an iOS engineer who thrives at the intersection of design and technology. Gained experience in projects developing in Swift and Obj-C applications. Was part of a team of iOS Engineers on the Health app with 4 millions monthly active users where we earned featured mentions in the App Store. Mastery in developing and releasing corporate applications.

Technical Skills (for automated parsing systems)

Swift, SwiftUI, UIKit, Objective-C, Git, iOS, watchOS, SPM, CI/CD, SOLID & TDD, Rest API, Jira, Figma

EXPERIENCE

CODABLE, Consultant iOS developer

Croatia — January 2020 - Current

Clients include: Glooko Inc, Included Health, Philips Sonicare app, Bellabeat app, Paddle Logger, Boat Buddy +

- I kick-started projects, written iOS UIKit/SwiftUI mix apps as earliest testable product for various clients in a startup teams. Features like visualization of health data and displaying charts for Bellabeat core app.
- Collaborated on WatchOS and iPhone water sport app, I implemented visualization of HealthKit data and tracking and calculating GPS data between the app users
- Part of mobile app team (2 iOS devs) that develop Philips Sonicare Enterprise app working with static C++ libraries and connecting devices with IOT technology
- Researched and developed iOS widgets • Take part in design and implemented backend- driven UI elements

AppsFactory, iOS developer

Germany — 2018 - Jan 2020

- Working in the iOS mobile team as part of the agency client projects. We enabled two B2C apps to deliver their services with innovative solutions for TV sport channel news feed and drinks delivery. Collaborated with engineers with GraphQL backend solutions and CI connection for nightly builds and services.
- Developed and supported "click-and-collect" feature (purchased items from merchant offline store)

PVH Corp, iOS developer

Netherlands — Dec 2016 - Jan 2018

- I maintained one of the biggest enterprise social-media retail apps and developed it together with two other iOS engineers
- Helped rewrite ObjectiveC point of sale enterprise app into Swift with iOS team engineers in time for summer retail season. App showed credit memos, purchase orders for in store sales department for online and offline mode

XS2The World, Junior iOS developer

Netherlands — Mar 2016 - Dec 2016

- I helped ship Swift iOS app with Meridian Beacon SDK and Bluetooth technologies for a History Museum of Eindhoven
- Built many of the UI in the iOS app that allows users to create moodboards with photoshop alike image editor

International Water Association, Front end developer

Remote / Netherlands Oct 2014 - Oct 2015

- Implemented and customized frontend event websites for congresses with HTML5, jQuery, CSS3, basic JavaScript using Git Version Control in a remote team
